Work Experience

Volunteer

December 2021 - April 2022

[Duncan Theatre](#) | Lake Worth, FL

- Committed to a monthly schedule and consistently followed instructions positively.
- Ensured timely arrival and full coverage until the end of events.
- Adapted quickly to changing situations, maintaining calm during emergencies.
- Conducted safety checks by visually sweeping theaters for potential issues.
- Maintained a quiet and orderly environment, ensuring compliance with theater policies.
- Reported any disruptive behavior to supervisors promptly.
- Directed and escorted patrons to their seats, providing excellent customer service.
- Distributed programs and other relevant materials to patrons.

Projects

Bloodline Requiem

January 2023 - Present

Developing an interactive fiction game using ChoiceScript, a scripting language designed for creating narrative-driven games, has provided skills in programming, debugging, software deployment, project management, and user feedback integration.

- Enhanced programming, debugging, and software deployment skills through project development.
- Managed the entire project lifecycle, including coding, debugging, file organization, and creative writing.
- Integrated user feedback to refine gameplay and narrative elements, demonstrating strong project management abilities.
